**Challenges for 2014...**

*In looking ahead to next year, we need to think inside and outside the box about how we might better meet our mission for the people we serve. As always, there will be funding challenges to maintain and enhance the good things we do and we will continue to work with external and internal collaborators to identify funding and other opportunities.*

**Welcome back for another exciting semester!**  
**We wish all our returning students the best as they pursue their studies at MSU.**  
**We wish all our faculty and staff the best as they continue to serve the Department, University, and State.**  
**We wish all of you the best for the New Year!**
